

7 February 1966

MEMORANDUM FOR THE RECORD:

SUBJECT: DCI Briefing on U.S. Participation in International
Lending Institutions

1. I delivered the subject briefing on Monday, 7 February at 0900, copy of my notes and data for graphics attached. The Director was more interested in asking questions about the International Financial Agencies and U.S. participation than in any series of set remarks, and I spent about 25 minutes simply answering questions.

2. The first one began after I indicated I would identify the International Lending Agencies. I gave the first one as the Ex-Im Bank. He asked me when and how it was organized and we were off on 25 minutes of questions. His questions covered not only all of the prepared remarks but a number of other lateral and useful areas of inquiry.

3. I thought, in general, that the briefing went very well. There were no questions left unanswered that he wanted replies to nor did he suggest any further briefing in this direction.
